1. PERSONNEL POLICY UPDATE

Clerk Ptak presented the council with information regarding the current updates she and the mayor will be working on before presenting the final to them for approval. The older version currently in use has many features to retain and update other areas with the newer version ICRPM provides. Tabled for future action item.

2. LOCAL OPTION TAXES UPDATE

City Attorney Joan Callahan updated the council regarding her intern has made some great progress on this and will be able to present to the council at the February 23rd meeting.

3. WATER LEAK FORGIVENESS POLICY UPDATE

Clerk Ptak is asking for guidance from council on how they would like to move forward with a policy regarding water leak forgiveness. Clerk Ptak feels to have a policy in place could be beneficial to the city office, they could

give citizens guidance as to what to expect when a leak has been detected through their billing. A few examples were, should there be a minimum before allowing forgiveness, a time frame to have the leak fixed, making sure the leak is fixed and checked out with public works before allowing the forgiveness?

4. SHORT-TERM RECREATIONAL VEHICLE USE ORDINANCE UPDATE

Councilmember Elliott had read through this and had many questions for the council and city officials, i.e.: has planning and zoning done their part in the zoning regulations? Whose properties would be affected. Attorney Callahan explained the planning and zoning still needs to work on and define what regulations RV and Trailer parks would need to meet and what that would mean for existing parks. There were divided feelings on how to pursue this as an action item last year and it was decided to wait until there was a full council before taking any action. The city currently has other ordinances in place that might be able to address the health and safety issue that originally brought this ordinance in front of the council. This item is only up for discussion and updates at this time and will be considered as an action item later.

V. NEW BUSINESS

ALLOW FOR CITY CLERK TO SIGN ENGAGEMENT LETTER AND SCHEDULE 2021
AUDIT. ACTION ITEM**

Martin made a motion to allow the clerk to sign the engagement letter and schedule the 2021 audit with Bailey and Company, seconded by Elliott. 3 ayes. Clerk Ptak thinks it will be possible May 16th.

**3. IDAHO CITY MEMBERSHIP ENROLLMENT WITH LIFEFLIGHT NETWORK FOR CITY
EMPLOYEES ACTION ITEM**

Clerk Ptak will investigate existing budget and give the council an update on whether this is something the city could provide for employees this year and would like to see about getting this in the budget for the following year. This may be an item to offer commission members as an incentive down the road.

4. IDAHO CITY FILMING INSIDE CITY LIMITS POLICY

Clerk Ptak was given advice to contact Department of Commerce to see what other cities or towns might have. As it is right now, if someone would like to shoot film in city limits, they are asked to contact the city and if possible, come before council, maybe fill out an event checklist so law enforcement and others are aware of the filming. There has been a recent rise in the number of requests.

VI. ORDINANCES AND RESOLUTIONS

Ordinances and resolutions are formal measures considered by the City Council to implement policy which the Council has considered. Resolutions govern internal matters to establish fees and charges pursuant to existing ordinances. Ordinances are laws which govern general public conduct. Certain procedures must be followed in the adoption of both ordinances and resolutions; state law often establishes those requirements. **ACTION ITEM**

C. PLANNING & ZONING COMMISSION

The current commission will need to update the commissioners and reappoint, either new members or existing with letter of intent. Clerk Ptak will advertise for these positions also. The last meeting was almost cancelled due to lack of quorum. A member came 15 minutes late and they were able to have the meeting. During the meeting it was discussed to have a few different public hearings, first being the interim moratorium on building permits and development applications that require or involve new connections to the City of Idaho City's water system with certain exceptions for pending building permits and permits related to a previously approved plan with documentation of serviceability. Second, regarding the proposed zoning of land upon annexation of a parcel of property located at 6 Proffer Lane, Idaho City. Thirdly, is regarding a zoning map correction for a vacant parcel of property in the Mores Creek Subdivision that was original platted and approved to be commercial property, but it is shown on the current zoning map as residential. All matters are scheduled to be heard February 17th to get the matters to council for the February 23 meeting as action items.

She asked the council to allow her to get a smaller hopper for the back of the city truck to use for sanding. The BIG sander on the dump truck is ancient and falling apart with not much more room to fix it. Mayor and council agree that it is something she should investigate as it is something that would make work much more productive when sanding the roads.

Clerk Ptak presented the council with information regarding the current updates she and the mayor will be working on before presenting the final to them for approval. The older version currently in use has many features to retain and update other areas with the newer version ICRPM provides. Tabled for future action item.

12. LOCAL OPTION TAXES UPDATE

City Attorney Joan Callahan updated the council regarding her intern has made some great progress on this and will be able to present to the council at the February 23rd meeting.

13. WATER LEAK FORGIVENESS POLICY UPDATE

Clerk Ptak is asking for guidance from council on how they would like to move forward with a policy regarding water leak forgiveness. Clerk Ptak feels to have a policy in place could be beneficial to the city office, they could give citizens guidance as to what to expect when a leak has been detected through their billing. A few examples were, should there be a minimum before allowing forgiveness, a time frame to

have the leak fixed, making sure the leak is fixed and checked out with public works before allowing the forgiveness?

14. SHORT-TERM RECREATIONAL VEHICLE USE ORDINANCE UPDATE

Councilmember Elliott had read through this and had many questions for the council and city officials, i.e.: has planning and zoning done their part in the zoning regulations? Whose properties would be affected. Attorney Callahan explained the planning and zoning still needs to work on and define what regulations RV and Trailer parks would need to meet and what that would mean for existing parks. There were divided feelings on how to pursue this as an action item last year and it was decided to wait until there was a full council before taking any action. The city currently has other ordinances in place that might be able to address the health and safety issue that originally brought this ordinance in front of the council. This item is only up for discussion and updates at this time and will be considered as an action item later.

15. IDAHO CITY FILMING INSIDE CITY LIMITS POLICY

Clerk Ptak was given advice to contact Department of Commerce to see what other cities or towns might have. As it is right now, if someone would like to shoot film in city limits, they are asked to contact the city and if possible, come before council, maybe fill out an event checklist so law enforcement and others are aware of the filming. There has been a recent rise in the number of requests.

16. PARKS & RECREATION COMMISSION

Mayor Everhart asked Clerk Ptak to advertise for letter of intent. Council would like to see Parks and Rec move forward with spring around the corner.

17. PLANNING & ZONING COMMISSION

The current commission will need to update the commissioners and reappoint, either new members or existing with letter of intent. Clerk Ptak will advertise for these positions also. The last meeting was almost cancelled due to lack of quorum. A member came 15 minutes late and they were able to have the meeting. FAQ: The Community Project

Do you have questions about The Community Project? Please attend one of our informational webinars **February 8th** or **February 10th**. In the meantime, we've collected answers to frequently asked questions below.

Foundation for Health that provides incorporated Idaho cities the opportunity to unite community leaders and residents to define, design, and create outdoor spaces that bring people together. The Community Project is a three-step process:

- Identify the community space (city park, town hall, library, etc.)
- Collaborate with community members and groups to cocreate a design and plan for the space
- The project comes to life through Blue Cross of Idaho Foundation for Health funding

Who can apply?

Only staff or an elected official of any incorporated Idaho city can apply for this grant. If you are a citizen, nonprofit, or other community group, please encourage your city to apply.

Why The Community Project?

The Blue Cross of Idaho Foundation for Health works to create a healthier Idaho by bringing people together and creating partnerships in communities. We take pride in listening to our partners, and we are hearing that cities are looking for ways to bring people together for the benefit of the community.

What types of projects will be funded by The Community Project grants?

Idahoans love the outdoors and their parks, so we envision projects in those areas that would be accessible to all community members, especially families and children.

That could mean a picnic area, pavilion, splash pad, walking paths, trails, gazebos, community gardens, park upgrades, or something else that a community brainstorms.

The Foundation will contribute up to \$85,000 toward the project. Communities

community input.

What do cities receive if awarded one of The Community Project grants?

The Foundation will fund the construction of the project (up to \$85,000) and provide a technical assistance contractor to help support community engagement and lead community focus groups. The Foundation will help create communications strategies, including surveys and mailers for communities to distribute, assist with ribbon cutting celebrations and social media support. A focus of this grant is community engagement and cocreating a community space to bring neighbors together, and we'll be there to support cities in that mission.

What should cities expect if selected and what obligations do they have in the grant process?

Awarded communities must allocate staff time or find outside support to help with community engagement, which is expected to be about 80 hours over the entire project (March through expected project completion in the fall). The Foundation will pay a small stipend on top of the grant to help support the workload. It is important that the community allows time for deep and thoughtful community engagement to get a wide variety of voices for this project. The focus should be on voices not typically heard at a city council meeting – youth, seniors, multilingual community members.

Cities must have allocated space for a project, such as a green space, park, or other site to develop a community project. Concepts need to have some city support already so that the process runs smoothly and can come to fruition in 2022.

What types of community engagement are expected?

School surveys, focus groups, social media outreach, mailers are ways to communicate and reach the community. This outreach will be done in March and

needed for community engagement with the city. The city liaison will help create survey questions and offer ways to get their input on The Community Project.

What is The Community Project timeline?

- **January 26** – Applications open
- **Feb. 8 and 10** – Informational webinars. Cities wishing to apply for The Community Project grants should attend one of these sessions to ask questions that will help in the application process. Register here: February 8th; February 10th.

Roads will be closed at the green location lines, allowing vehicles to move all the way down Montgomery and across side roads School and Centerville Rd.

There will be access to parking at Seasons and Visitor Center. Driveway access will be open for Gehrls and Trading Post apartments. Overflow contestants will be in the middle of the road to allow local driveway access to Prospector and east side of Main.

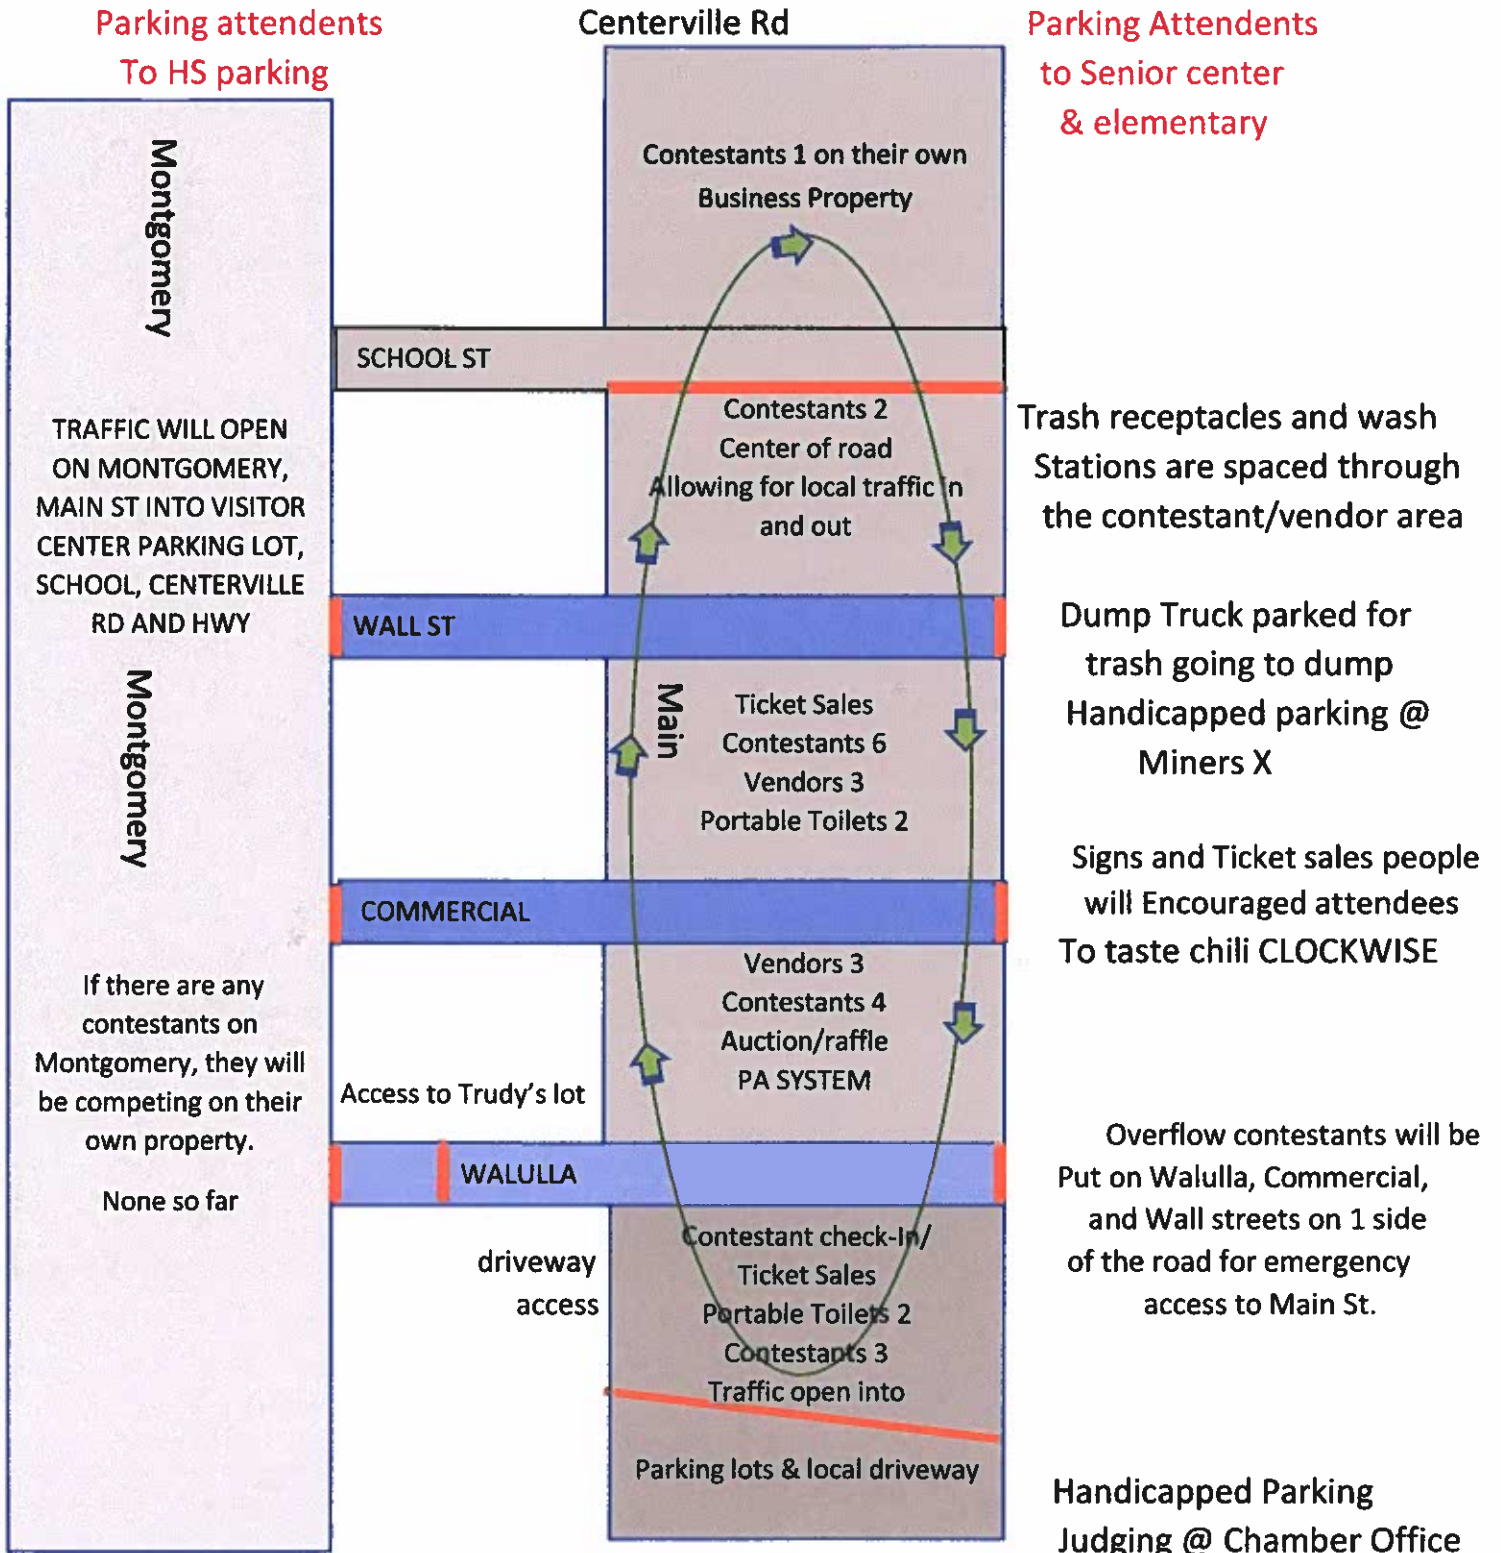

Now that the event is so spread out, Music will likely be separate speakers playing music by each decade at each block. The volume will be lower than a band would be in a central location. The Gold Mine and Harleys are both having After Party live bands, after the event.

Parking locations are shown in red. Contestants may extend as far along Main St. as from Seasons to Sluice Box .
