the 1990s, the number of people with a mental health problem has increased by 50% (Mental Health Foundation, 2000).

There is a growing awareness of the need to address the needs of people with mental health problems, and the importance of providing them with appropriate services. However, there is a significant gap between the current needs of people with mental health problems and the services that are available to them. This gap is due to a number of factors, including a lack of resources, a lack of training for health professionals, and a lack of awareness of the needs of people with mental health problems.

One of the main reasons for the gap between need and service is a lack of resources. There are not enough health professionals to meet the needs of people with mental health problems, and there are not enough services available to them. This is due to a number of factors, including a lack of funding, a lack of training for health professionals, and a lack of awareness of the needs of people with mental health problems.

Another reason for the gap between need and service is a lack of training for health professionals. Many health professionals do not have the necessary training to deal with people with mental health problems. This is due to a number of factors, including a lack of funding, a lack of training for health professionals, and a lack of awareness of the needs of people with mental health problems.

A third reason for the gap between need and service is a lack of awareness of the needs of people with mental health problems. Many people do not understand what it is like to have a mental health problem, and they do not know how to help someone who has one. This is due to a number of factors, including a lack of funding, a lack of training for health professionals, and a lack of awareness of the needs of people with mental health problems.

There are a number of ways in which the gap between need and service can be closed. One way is to increase the number of health professionals who are trained to deal with people with mental health problems. Another way is to increase the number of services available to people with mental health problems. A third way is to increase the awareness of the needs of people with mental health problems.

It is important to address the needs of people with mental health problems, and to provide them with appropriate services. This is because mental health problems can have a significant impact on a person's life, and it is important to help people who have them. There are a number of ways in which the gap between need and service can be closed, and it is important to take action to address the needs of people with mental health problems.

## VI. ORDINANCES AND RESOLUTIONS

Ordinances and resolutions are formal measures considered by the City Council to implement policy which the Council has considered. Resolutions govern internal matters to establish fees and charges pursuant to existing ordinances. Ordinances are laws which govern general public conduct. Certain procedures must be followed in the adoption of both ordinances and resolutions; state law often establishes those requirements. **ACTION ITEM**

## VII. EXECUTIVE SESSION

Certain City-related matters may need to be discussed confidentially as a matter of law subject to applicable legal requirements; the Council may enter executive session to discuss such matters. **ACTION ITEM**

## VIII. EMPLOYEE UPDATES

### A. PUBLIC WORKS

Director Claus was not in attendance; she had been out all afternoon thawing out a line that she and mayor have been working on the last week. As of February 7, 2023, all lines were running. Mayor Everhart updated council that he has been working with Tami and has some recommendations and thoughts, he will be discussing with her. This summer Mayor says there is a need to excavate the area to determine what findings they can see and why they are freezing.

### B. LAW ENFORCEMENT

Mayor spoke for Chief Otter, they have been room clearing and hostage training at the high school, this was done in conjunction with the county sheriffs office, on February 7, 2023 he assisted in serving a search warrant and recovered large quantities of stolen items from several burglaries around the area, including firearms and UTVs. John Adams is back doing his field trainings.

### C. CLERK/TREASURER'S OFFICE

Community Hall door needs to be repaired or replaced, will be getting bids.

#### 1. BUDGET UPDATES

Will be on next meeting.

#### 2. WATER AND SEWER UPDATES, **ACTION ITEM**

Adjustments that were approved last meeting on January 25, 2023, were presented for council review and signature.

### D. CITY ATTORNEY

City attorney Joan Callahan will be attending a meeting on Friday, February 10, 2023. The city of Moscow is in litigation with some commercial landlords over the charging of who is responsible for the water services from the city wither landlord or tenant, the district court on a couple grounds ruled that the landlord, the land owner is not responsible party it's the tenant that is the responsible party, and the city could not use a contract to shift that responsibility back to the land owner. So Idaho city like many other cities in Idaho have the same statute that places responsibility to the land owner not the tenant that causes issue with people being transient and trying to recoup fees. After the city of Moscow had lost at the district court, has appealed to the Idaho supreme court. The assoc. of Idaho Cities is planning on filing amicus brief, which is just a friend of the court brief, saying our members have similar interest to the plaintiff, here is the critical issue the court needs to consider and rule in this particular way. There is a conference call on February 10, 2023, municipal attorneys to discuss the district court ruling. The smaller cities have the issues, not so much the bigger ones, as they already have the tenant responsible. Applies to any landlord, tenant situation. Callahan will give an update after the meeting. This won't be decided any time soon. It's still early on.

## IX. COUNCIL UPDATES

Council member Secor mentioned there are citizens watching and paying attention to water and sewer bills and those who have past due amounts. Secor believes council members and City employees are doing their due diligence in collecting the past due amounts.

## X. MAYOR UPDATES

Mayor gives praises to Tami for all she has been doing these last couple weeks, whatever needs to be done Claus is there. Mayor is taking every other weekend to do rounds, until the city can find someone to take over. Mayor has had discussions with Claus and Ptak, about a wage increase for the public works position, more discussions will take place to figure out the allowed budget. Thoughts and discussion will be talked about at the next meeting, February 22, 2023. City shop is having issues with the heater, Mayor is wanting to update, he asked Heffington investigate it and give his recommendation. Mayor wants to have a new steamer pot built to help thaw out lines. Mayor would like to see the restrooms in the back of community hall done.

## XI. CITIZEN COMMENTS

This section of the agenda is reserved for citizens wishing to address the Council regarding City-related issues that are not on the agenda. To ensure adequate public notice, Idaho Law provides that any item requiring Council action must be placed on the agenda of an upcoming Council meeting, except for emergency circumstances. Comments related to future public hearings should be held for that public hearing. Repeated comments regarding the same or similar topics previously addressed are out of order and will not be allowed. Persons wishing to speak will have 5 minutes. Comments regarding performance by city employees are inappropriate at this time and should be directed to the mayor, either by subsequent appointment or after tonight's meeting, if time permitting.

Ted Jewell would like to build a trail on a piece of his property, would like to get city blessing, council members give him their blessing, if it's maintained on his property. He would also like to discuss the possibility of giving the city a portion of his property off elk creek, where the gravel pit is now, to have the city use it for a possible location for the city shop.

Hi Nancy

Probably should add this to the agenda also.

Thank you

Subject: Letter of Support for grant funding opportunity for the All Hazard Mitigation Plan update

Good afternoon,

Boise County's Hazard Mitigation Plan expires in May of 2023. I am applying for a grant to help with the cost of the update. I am writing to ask if Idaho City would be willing to write a letter of support for this grant opportunity. The grant application and supporting letters are due by February 28th. Letters of support are required in order to receive this grant. I am attaching an example of a letter of support that has been used by another county for a similar grant opportunity. Please let me know if this is something you will be able to supply.

Thank you,

Trinia Richardson

Pamela S. Williams  
Asst. Administrator,  
Grant Programs Directorate  
U.S. Department of Homeland Security/FEMA  
400 C Street S.W., 3N

Dear Ms. Williams,

I am writing on behalf of the Idaho City Fire Protection District. It is my understating that the department has applied for an Assistance to Firefighters Grants for a fill station for filling tanks on a Self-Contained-Breathing-Apparatus.

The department's current fill station is 22-year-old and in dire need of replacement to meet current fire standards.

A replacement would be a great benefit to not only the department but also the community. Most of the small communities in Boise County rely on small volunteer fire departments and these grants become vital to the survival of these departments and the safety of the residents.

I ask that you give serious consideration to this grant application and please don't hesitate to contact our office if you have any questions.

Sincerely,

Ken Everhart-Mayor  
208-392-4584

Nancy,

I had a meeting with the Commissioners today. This is what I learned. Based on the time stipulation, and that the road is within city limits, that the city is responsible for fixing the road unless a document can be provided that shows otherwise.

I am sure you have heard or been asked this before. Do you have any info on the questions listed below? If not, maybe I need to come to another meeting and be put on the list to speak?

- A document that shows who is responsible for fixing Montgomery rd?
- Do you know who paved it originally?
- At what point does it become a county road, EX past high school or past the dump?
- Sewer system under that road. When will that be repaired?
- Can the road and sewer system be fixed at the same time? I would hate to see the road fixed only to tear it up in a few years to do the sewer work.
- How can we get a time stipulation to get the document produced and if not then the City will need to fix the road?
- Why is there no-one from the City at the Commissioner meeting?
- How does that get put in the job description? That the Mayor needs to be at the Commissioner meetings and the Commissioner Chair needs to be at city meetings. If this was done I think there would be better communication all the way around.

City Clerk-Treasurer

City of Idaho City

Idaho City, ID 83631 USA

Regarding my conversation with you this morning, I am using this letter of intent for the Cities consideration.

**Background:** Last summer the Idaho City Water Department dug up and deepened the waterline to my house.

On the morning of 2/1/2023, I awoke at my residence (115 Mores Creek Drive) without city supplied water. I immediately called the City Water worker Tammy and explained we had no water coming to our home. Soon, Tammy and Kenny arrived to investigate my situation. They opened the water box which has two water meters and lines installed, with insulation. Upon further investigation, Kenny opened the waterline to the meter that is designated to the empty lot between the Peck's and myself. Upon opening the line, Kenny found an uninhibited flow of water from the line. We discussed the situation and Kenny was under the assumption, if that waterline was not frozen, then my line from the city was not frozen as well. He concluded since both lines run together, how could one be frozen without the other being frozen. Without further investigation and not checking the waterline servicing my meter and house, the water personnel covered the water box.

We spoke for some time and it was decided that my line from the meter to my house was frozen and needed repaired. I told Kenny the neighbor replaced his line last summer. That morning I was informed 3 additional residences besides mine were likewise frozen.

That afternoon I contacted Beacon Plumbing in Caldwell Idaho to inquire if they could do the work. They sent out a technician to examine my property and give me a quote for the new waterline. He estimated 45 feet of replacement line would be needed with the work costing \$8,800.00+ . I told him to do it and signed the agreement. He would return on 2/2/2023 with the needed equipment and supplies.

On the early afternoon of 2/2/2023, Brady the technician and assistant arrived at my home with an excavator and supplies. He again looked over the project and wanted to make sure the frozen area was correctly identified. He told me he did not want to replace a waterline and find out my line was not frozen, thus not correcting the problem. He entered the water box and detached my line from the meter, where a small amount of water flowed freely out of my line. Thus Brady, did not think my line was frozen and it must be frozen from the meter and the city waterline.

Soon, Tammy and Kenny arrived and we discussed what Brady had witnessed. So, Kenny entered the water box and unhooked the city line from the meter and found that main line was frozen. We discussed the situation and thought trying to hook up my water line with the additional line (free flowing) would be a good idea. Kenny and Tammy told us they were going to the shop and would return.

Upon returning, they had manufactured a pipe that would allow Kenny to attach my waterline to the unused line. They attached the line, turned the water on at that meter and my house immediately received water. No further work was necessary. We all spoke and it was definitely confusing why one line had frozen but not the other. Neither waterline had been insulated, since Kenny thought that not necessary with a depth of five feet.

On the morning of 2/3/2023 I received a phone call from Beacon Plumbing and received a bill for the excavator and operator for 8 hours, concrete blankets and labor for 1 full work day 2 technicians.

The bill total for all this was \$2,207.35 which I paid with my credit card.

In conclusion, if the water crew had completed a thorough investigation and checked both lines, the frozen waterline would have been fixed prior to me having to call Beacon Plumbing. That was a waste of time, resource, and money.

In conclusion, I write this letter requesting payment to me for the expenses I incurred using the plumbing company. That amount to be \$2207.35.

I have 4 options for the successful resolution to this situation:

1. Payment in full to me \$2207.35.
2. Split the payment to me, \$1104.00 and \$1104.35 credit on sewer and water which would be for approximately 11 months prepaid.
3. All the \$2207.35 to be applied as prepayment for sewer and water for approximately 22 months.
4. File a Small Claims Court Document against Idaho City.

I sincerely hope you find one of these above 3 options workable.

Best Regards,

#### Description of Work

Beacon plumbing was called out for a frozen main water line. Is aware that it is shallow because it obviously froze. Beacon plumbing will give estimates to replace the line and bury it approximately 6 feet in the ground with tub insulation on the line. Beacon plumbing will excavate down and dig up the water main and install a new water service line. Beacon plumbing will insulate the water service line.  
Beacon will backfill upon passed inspection

\*\*Beacon plumbing was able to confirm the problem with the water meter and did not end up having to replace the water line. Beacon plumbing will have to charge the homeowner for the machine rental, the concrete blanket rental, and the labor for the 2 technicians that were up there for the whole day and the dispatch fee for the day before.\*\*\*

Work to be code compliant and inspected if permits are required. All work is warranted for one year to be free of defects or workmanship, excluding any items provided by the customer. If any manufacturer of materials provides a longer warranty for their product(s) Beacon will assign the warranty if allowed. Terms of Payments: ½ down at the start, balance upon completion. Price is subject to change upon discovery of complications. Work will be halted until problems are addressed and discussed with customer. Exclusions:

1. Electrical connections of units requiring licensed electrician
2. Not responsible for buried or concealed utilities or unusual debris encountered while excavating
3. Any changes or alterations to the scope of work specified above shall be deemed as an extra and shall be made as part of a change order
4. Customer will provide access and meet inspector.
5. Any code upgrades on existing plumbing to be charged separately.
6. No warranty on building drains or sewer w/out video inspection
7. No warranty on existing plumbing
8. Beacon is not responsible for concrete or asphalt patching. Beacon will remove debris from site and leave work site in an orderly and clean manner.

Idaho City, ID 83631

**RE: Ileah and Beau Sylvester  
117 Mores Creek Drive  
Idaho City, ID 83631**

To Whom It May Concern:

I am writing to you on behalf of Ileah and Beau Sylvester regarding the city water line and meter that froze preventing their home at the above address from receiving running water. Ms. Sylvester notified the city that her home had no running water on December 30, 2022. Due to the city's negligence, and clear omission of the truth regarding the city's water lines being frozen, the Sylvesters were forced to leave their home and incurred damages and expenses. We demand that the city reimburse the Sylvesters for their expenses.

Ms. Sylvester contacted the city immediately to inform that her house had no running water. At the time, the city could not give an estimated time for inspection or resolve to the issue despite many phone calls. Ms. Sylvester hired a plumber the following day to determine if the issue could be resolved on her end. The plumber determined that the city's main service line was frozen and there was nothing that the Sylvesters could do as the city needed to resolve the problem. After two (2) days with no water, Tami Claus and the Mayor, finally inspected the city meter and water lines and determined that the Sylvester's water lines were not deep enough and the problem must be with their lines. The Mayor advised Ms. Sylvester that the city's main water line to her house was flowing, so it must be her problem to resolve. Ms. Claus and the Mayor were both incorrect and it is now known that it was the city's line that was frozen. Further, Ms. Sylvester had to

prove that her lines were not the issue by providing evidence that her lines were in fact dug deeper and more insulated than what is required per city code. It was not until February 3, 2023 that the city took responsibility for the frozen water lines and admitted they needed to be repaired, which would not happen until spring. The temporary fix of connecting the Sylvesters' home to the neighbor's water meter is not ideal and the Sylvesters need to be compensated for your clear omission regarding the problem with the city's water lines and negligence in diagnosing and repairing the same.

We demand that you reimburse the Sylvesters for the costs they incurred from having to leave their home due to no running water. If the city had taken responsibility, inspected the problem promptly, and correctly, these expenses would not have been incurred. Please send the Sylvesters a check for \$850.28 to the above listed address. This amount represents their hotel, food, and other expenses sustained from the Sylvesters being forced to leave their home (receipts are available upon request). If the Sylvesters do not receive reimbursement within ten (10) business days after receipt of this letter, we have advised them of the right to take further legal action. Your prompt attention to this matter is appreciated.

Sincerely,

SMART SCHOFIELD SHORTER, P.C.

THE BAYS FREE FOR A CITY SHOP. THE LAST OFFER MADE BY THE COUNTY WAS A 5 YEAR LEASE AT \$300/MONTH WITH 50% OF THE PAYMENTS TO GO TOWARD AN OPTION TO BUY. CORUM WANTS TO GO WITH \$500/MONTH AND LEASE FOR 5 YEARS WITH OPTION TO PURCHASE. LINVILLE STATED THERE ARE STATUTES THAT GOVERN SELLING AND LEASING. TO LEASE THE CITY NEEDS TO DETERMINE THAT THE BUILDING IS NOT USEFUL TO THE CITY AND THEN CAN LEASE. JAMESON REPORTED HE HAD TOLD THE COUNTY THAT AT THIS TIME THE CITY IS NOT INTERESTED IN SELLING THE BUILDING. LINVILLE STATED IT IS EASIER TO LEASE THEN SELL. CAN ENTER INTO A LEASE BY RESOLUTION. Council met in Regular Session at 8:00 p.m. in the City Hall.

Present: John B. Brogan, mayor; Raymond Robison, President of the Council; Roger Jackson, Kenneth Smith, councilmen; Rora A. Phillips City Clerk. Wm Moats, absent.

Also present: Donna Neth, Lynn Bowerman, Richard Taylor, Thomas Cushman, Frank Eno, Mr. & Mrs. Daugherty, and Mr. Anderson with Blue Cross of Idaho Insurance.

Whereupon the following proceedings were had to, wit:

Council went to New Business

Mr. Ted Anderson with Blue Cross of Idaho Insurance appeared before the Council first. He submitted to the Council two insurance plans for City Employees, and explained each. Council stated they would review them, and let him know at a future date, if interested. Copies of said plans are in the Clerk's office for inspection.

Clerk had the next new business. She submitted to the Council a Correction Warranty Deed from Albert W. Lewis and Wanda R. Lewis to the City of Idaho City correcting the description appearing in that certain Warranty Deed executed by the Grantors to the Grantee dated January 8, 1975, and recorded as Instrument No. 83420, according to the records of Boise County, Idaho. Clerk also submitted a Correction Municipal Corporation Warranty Deed for the Mayor's signature, and Council's approval. Councilman Jackson made a motion that the City accept both Correction Deeds and to have the Clerk record each after their being notarized; Councilman Robison seconded. Clerk called the roll, motion carried.

Aye: All

Nay: none

Wm Moats, absent

Thomas Cushman had the next new business. He stated that Montgomery Street is a County street. The City can control parking and traffic; however, the Judge had dismissed the parking tickets Mr. Bowerman had written because the street signs were ~~not posted~~ <sup>not posted right</sup> confusing. Councilman Robison stated that he, Councilman Smith, Lynn Bowerman, and Donna Neth had all met with the County Commissioners on Monday and entered into an agreement with the County, whereby the County would purchase traffic-control signs for Montgomery Street, and the City would provide the installation. The County also agreed to purchase six lengths of 12" steel culvert 10 feet long, and connecting bands, to extend existing culverts under streets abutting Montgomery Street. The City agreed to install the extensions. Mr. Cushman next stated that the State Highway Dept. would have to put up the "truck" signs. The City would have to contact them and request this.

Mr. Cushman went to Old Business next.

He stated he had sent letters to: Wilber Stirling, James Bailey, Keith Schultz, and John Barrett in reference to the encroachment upon Idaho City Property (Hill's Road). He stated that he had wanted Mr. Barrett, the current owner, to make a written offer, so that the City could then have a public auction if it decided to sell the land. Mr. Cushman further stated the City can either, do nothing

Commissioners Proceedings, Page 3  
February 13, 1978 (Continued)

A Plat of the Bailey Estates Subdivision was submitted for approval. Same was approved. Jim Fessenden was in attendance as a spectator.

The County Treasurer presented several requests for Tax Cancellations, all of which were approved.

Law enforcement was the main topic of discussion of Raymond Robison, Idaho City Councilman. It was also agreed to extend the Courthouse drain pipe across Wall street at Mr. Robison's suggestion, as a means of improving drainage.

A Plat of Castle Mountain Subdivision #4; four Plats of Pine Tree Ranch; and a Plat submitted by Dave Roylance, were all approved.

Approval was withheld on Severence Subdivision, the Board requesting Central Health District approval prior to County approval.

Public Defender wages were reviewed and the Prosecuting Attorney was requested to make further studies and take appropriate action.

Casco was the successful bidder on a new John Deere grader.

The following Resolution was adopted:

Ranger Britton asked the Commissioners if they had any objections to logging trucks using Montgomery Street, on a twenty-four hour per day basis, for a period of four (4) to six (6) weeks, in a future timber sale. There were no objections.

The Sheriff asked for some type of ordinance regulating parking for snowmobiling, to take effect next winter. The Commissioners agreed to provide the Sheriff's Office with tele-type service, and the Sheriff gave the Commissioners a firm commitment to provide full-time deputy service to the west side of the county.

Ownership requirements for filing a plat and County owned roads were discussed by the Assessor. He also stated that he has certified county valuations at 20% to the Commissioners.

Several taxes were cancelled at the Assessor's request, for various reasons.

The low bidder for a fifteen (15) passenger bus, was New Valley Dodge. They were notified of their successful bid.

Board do now adjourn.

Commissioners Proceedings (Page 3)  
March 12, 1979. Continued

Electrical power to eventually irrigate the Horseshoe Bend Solid Waste disposal site, with the aim of converting it into a park, was approved by the Board.

A business center near Crouch was discussed by Larry Throngard, Jim and Carol Youren. No action was taken, as the County Attorney was in Court, and it was felt that an opinion would be desirable from him.

Deputy George Reed was authorized to consult with plumbers on increasing the volume of water in the county jail at Idaho City.

A tax cancellation and related matters was presented by Treasurer Carlyne B. Reed.

Approval of the Ratio Study by the State Tax Commission was requested by Archie Mull. Same was approved and signed by the Board.

Church and Religious Tax Exemptions, EB-166, Revaluation and Finances were topics discussed with Jack Craig.

An agreement was reached with Donna Keith, Lynn Bowerman, Ken Smith and Ray Robinson, whereby the County would purchase traffic-control signs for Montgomery Street, and the City of Idaho City would provide the installation. Montgomery Street is part of the County Road System, and is designated as a Federal Aid Secondary Road. The County also agreed to purchase six lengths of 12" steel culvert 10' long, and connecting bands, to extend existing culverts under streets abutting Montgomery. Idaho City agreed to install these extensions.

The Board approved negotiating any necessary agreements with Custer and Valley Counties, the Challis National Forest, and any other Government Entities, concerned with Snowmobiling and Trail Grooming.

Board do now adjourn.

the 1990s, the number of people in the world who are undernourished has increased from 600 million to 800 million (FAO 1996).

There are a number of reasons why the world's population is becoming more undernourished. First, the world's population is growing rapidly, and the number of mouths to feed is increasing. Second, the world's population is becoming more urbanized, and the demand for food is increasing. Third, the world's population is becoming more affluent, and the demand for food is increasing. Fourth, the world's population is becoming more mobile, and the demand for food is increasing. Fifth, the world's population is becoming more educated, and the demand for food is increasing. Sixth, the world's population is becoming more health conscious, and the demand for food is increasing. Seventh, the world's population is becoming more environmentally conscious, and the demand for food is increasing. Eighth, the world's population is becoming more technologically advanced, and the demand for food is increasing. Ninth, the world's population is becoming more socially conscious, and the demand for food is increasing. Tenth, the world's population is becoming more politically conscious, and the demand for food is increasing.

There are a number of ways in which the world's population can be made more food secure. First, the world's population can be made more food secure by increasing the production of food. Second, the world's population can be made more food secure by increasing the distribution of food. Third, the world's population can be made more food secure by increasing the access to food. Fourth, the world's population can be made more food secure by increasing the quality of food. Fifth, the world's population can be made more food secure by increasing the quantity of food. Sixth, the world's population can be made more food secure by increasing the variety of food. Seventh, the world's population can be made more food secure by increasing the safety of food. Eighth, the world's population can be made more food secure by increasing the stability of food. Ninth, the world's population can be made more food secure by increasing the sustainability of food. Tenth, the world's population can be made more food secure by increasing the equity of food.

There are a number of challenges to making the world's population more food secure. First, the world's population is growing rapidly, and the demand for food is increasing.
