the 1990s, the number of people in the world who are living in poverty has increased from 1.2 billion to 1.6 billion (World Bank 2000).

There are a number of reasons for this increase in poverty. One of the main reasons is the rapid population growth in the developing countries. The population of the world is expected to reach 8 billion by the year 2025 (United Nations 2000). This rapid population growth is putting a strain on the world's resources and is leading to a decline in the standard of living in many developing countries.

Another reason for the increase in poverty is the rapid technological change in the developed countries. The rapid technological change is leading to a decline in the demand for low-skilled labour in the developed countries. This decline in demand for low-skilled labour is leading to a decline in the wages of low-skilled workers in the developed countries, which is leading to an increase in poverty in these countries.

There are a number of policy options that can be used to reduce poverty. One of the most important policy options is to increase investment in education and training. This investment will help to increase the skills of the workforce and will lead to an increase in the demand for labour, which will lead to an increase in wages and a reduction in poverty.

Another important policy option is to increase investment in infrastructure. This investment will help to improve the transportation and communication networks in the developing countries, which will lead to an increase in economic growth and a reduction in poverty.

There are a number of other policy options that can be used to reduce poverty, such as increasing social safety nets and providing micro-finance services to the poor. These policy options are all important and need to be implemented in a coordinated manner in order to effectively reduce poverty.

The World Bank has a number of programs that are designed to help reduce poverty in the developing countries. These programs include the International Development Association (IDA), the International Finance Corporation (IFC), and the Inter-American Development Bank (IDB). These programs provide financial assistance and technical support to the developing countries in order to help them reduce poverty.

The World Bank also has a number of reports and publications that provide information on poverty in the developing countries. These reports and publications are available on the World Bank's website and are a valuable resource for anyone interested in poverty reduction.

There is a need for more research on poverty reduction in the developing countries. This research should focus on identifying the causes of poverty and on developing effective policy options to reduce poverty. This research should also focus on evaluating the impact of poverty reduction programs and on identifying the best ways to implement these programs.

There is a need for more research on poverty reduction in the developed countries as well. This research should focus on identifying the causes of poverty in the developed countries and on developing effective policy options to reduce poverty. This research should also focus on evaluating the impact of poverty reduction programs and on identifying the best ways to implement these programs.

Hearing procedures call for presentation by the applicant, submission of information from City staff, followed by public testimony. **ACTION ITEM**

Counselor Elliott signed off zoom meeting.

IV. ENGINEER'S REPORT

Mayor Everhart explained that some test wells and been done and caused issues with the water plant and so Merrick has developed another plan. Greg Dye with Merrick explained that sometime before 1989 infiltration gallery number 1 was installed. In 1989 infiltration gallery number 2 was installed and number 1 was abandoned. In 1995 the raw water pumps and slow sand filters were installed. In 2001 the chlorine contact piping was installed. After that event, the raw water pumps, and infiltration gallery #2 started having problems conveying flow. In 2018 2 new wells were installed and sometime thereafter an embankment collapsed in Elk Creek and caused the wells to stop performing. This is the current condition and the Facility Plan called for reconstructing infiltration gallery #2. There were some test pits dug on top of gallery #2 to better understand the failure and that digging disrupted the quality of the ground water and caused turbidity. This caused the engineers to rethink the recommendations that are in the Facility Plan. The Engineers developed a plan that dispersed and reduced the intensity of the withdrawal of the ground water. The plan is to install 10 well points that would have a gentler withdrawal of the ground water. Each well point will have a gravel pack around it that will eventually clog with sediment and through a procedure called redevelop the well, a contractor can come in and backflush the well to clear the sediment and then reuse the well. Counselor Heffington asked if the current wells could be backflushed and reused. Mayor Everhart responded that they did try when the original problem began but it did not do anything. The original wells were not designed like the ones being proposed. Dye added that to demonstrate to the City & DEQ the new proposed wells they would install one well in advance of all the other improvements to monitor the water quality, etc. The other item the Engineers will address is the turbidity going through the slow sand filters. The filters are not designed to capture small clay particles and so the plan would be to add another stage of filtration before the sand bays that would be treated with a chemical to remove the clay particles before they get to the slow sand filters and thus reducing the turbidity. Discussion on the filter media, and chemical used ensued. Dye added that the new filtration would need to be flushed occasionally to remove any build up and that would go to sewer. Mayor Everhart stated that dumping

to sewer needed to be looked at because the sewer plant is already at capacity and potentially could not handle the added load. Mayor asked if it could be flushed to waste, and Dye responded that they could look into that. Dye went on to explain that they have spoken to DEQ, and they are in agreement but want to see the details and preliminary engineering report. Mayor Everhart asked if there was any idea on cost and Dye responded that costs would go up and it would be in the preliminary engineering report, but he did not have any idea at this point. Mayor Everhart asked that if the 10 new well points are designed to be less flow then the pumps would then be less expensive, and Dye responded yes. Counselor Secor added that he understands the concept but instead of 2 points of maintenance there would be 10. Having that many wells will definitely increase maintenance costs and that is what he does not like. Discussion on wells, maintenance, and other options ensued. Dye added that the reason they went with smaller wells was that they would be easier to develop and flush because there are more of them spreading out the suction of ground water. Going with fewer wells and larger pumps would potentially have a harder time developing and flushing. Discussion ensued. Dye added that he would go back to his team and discuss the maintenance and operation concerns and also the possibility of fewer wells with the ability to flush and clean.

V. ORDINANCES AND RESOLUTIONS

Ordinances and resolutions are formal measures considered by the City Council to implement policy which the Council has considered. Resolutions govern internal matters to establish fees and charges pursuant to existing ordinances. Ordinances are laws which govern general public conduct. Certain procedures must be followed in the adoption of both ordinances and resolutions; state law often establishes those requirements. **ACTION ITEM**

A. REVIEW - RESOLUTION 2024-03 ADMINISTRATION FEES 2024

Clerk Ptak asked council to review the fee changes and new fees. There will have to be a public hearing before the fees can be implemented. Ptak will get the notification sent to the newspaper for publication which will have to run for 2 weeks prior to the public hearing. Public Hearing would potentially be the second meeting in March.

VI. OLD BUSINESS

A. PROPERTY SWAP WITH SECOR

Mayor Everhart asked if there was any way to check in with the surveyor to see where things are. Discussion on the survey ensued. City Attorney Callahan added that she and Ptak will get together to discuss this item.

B. IDAHO CITY FIRE PROTECTION DISTRICT.

No new information. Clerk Ptak added that there will be a letter sent to the paper letting the public know about the special meeting which will be March 20th at the community hall.

VII. NEW BUSINESS

A. 2022-2023 AUDIT BAILEY & COMPANY PRESENTATION

Cassie Zattiero from Bailey & Company presented the 2023 Idaho City Audit to Council members, Mayor, City Clerk and other attendees. After Zattiero went through the audit, she discussed some items for the council and mayor to be aware of and take more time in the processes of, all time sheets should be signed by supervisor and supplied for all employees, even salaried, and then signed by the Mayor. This is to limit employees being paid for time they did not actually work. It was suggested that the clerk and mayor hand timecards back to supervisors if this has not been done correctly, or document why the time sheet is not signed correctly. Ptak asked is a time sheet is emailed and the supervisor has looked at it but has no way to sign, does that work as approval, and Zattiero responded to make sure there is documentation.

B. DISCUSSION ON CITY CODE FOR SOLICITING & PANHANDLING

Brent Watson explained that he had an incident with a couple people last weekend. There is an Idaho State code for panhandling and solicitation where you cannot have signs or hitchhike. Currently there is nothing in the Idaho City code that covers this. Mayor Everhart asked if Watson could look into other municipalities to see what they have and if Idaho City can implement it. Watson has gone through Caldwell & Nampa's code which are similar on this topic and that information is provided in the packet. Watson did not believe that the first offense should be a misdemeanor, but an infraction or fine, and then an increases penalty for repeat offense. Watson added that he should have the cameras for the park sometime next week.

VIII. COMMITTEE REPORTS

A. PARKS & RECREATION COMMISSION

James Correll explained that the first item is the BLM lease, he has a meeting in March. Correll asked if there is any kind of event at the rodeo grounds does it go through the city and Ptak responded yes. Parks and Rec would like to produce some ideas to make money at the rodeo grounds. Correll questioned if there is any money in the budget for the commission, Ptak responded there is a minimal amount in the budget. In the past P&R would get grants and there was a separate P&R fund, but the city has not had that since 2016-2017. Correll went on to address the RV dump and explained that the only thing they have been able to produce is to add a camera. Mayor Everhart asked Watson that if a camera was installed and the city got pictures of someone filling large totes and a license plate is that something the city could pursue. Watson responded that the city would just need to establish proof. Mayor added that the camera would need to be able to see the amount of water to establish that proof. Discussion ensued. Correll added that he was able to get a name for the Forest Service so that P&R can pursue that lease as well.

B. HISTORIC PRESERVATION COMMISSION

C. PLANNING & ZONING COMMISSION

Counselor Adams explained the commission did not have anything to update but will be working on the RV Park ordinance.

D. IDAHO CITY CHAMBER OF COMMERCE

IX. EMPLOYEE UPDATES

A. PUBLIC WORKS

Public Works Director Claus explained the grader situation. There have been a number of parts and sensors changed, but it still will not start. Claus asked how far council wanted her to continue. Mayor Everhart responded that if the city cannot get it running it is not worth anything. Claus met with Jeff Cook with IRWA and he likes all of the things Claus has implemented. Public Works will be cleaning another sand bay and has community service help to get it done. Claus added that she ordered patch material for the potholes, and it should be here the middle of March. Public Works will be filling potholes on main and Bear Run Thursday. Montgomery is holding up pretty well. Claus added that the sewer line at the Senior Center was replaced last week. Mayor Everhart added that Clerk Ptak has been speaking with Merrick to see if some of the funds from the grant can be used for water plant needs.

B. LAW ENFORCEMENT

C. CLERK/TREASURER'S OFFICE

1. WATER AND SEWER UPDATES, **ACTION ITEM**

Clerk Ptak explained that the water updates are in the packet and getting better. There were no budget updates. Still working on a budget friendly report for council that will show line items. Ptak added that the audit went really well. Ptak sent everyone an email regarding Capital for a Day and asked if anyone had any comments to send them in. Mayor Everhart added that the lunch time will not be open to the general public, but just community leaders. The other two sessions will be open to everyone.

D. CITY ATTORNEY

X. COUNCIL UPDATES

Counselor Secor explained that there are a lot of coyotes around currently and everyone needs to keep an eye on their animals, kids, etc. Secor added that there was a dog that killed one of his families chickens (dog at large). Ptak asked if the dog had a license and Secor responded no. Watson questioned the incident and asked if someone could contact him. Discussion on dogs in the city ensued. Counselor Adams added that the ambulance is going through a redistricting. She is unsure of the whole process, but it will be coming in front of the city. City Attorney Callahan gave an update for Counselor Elliott who wanted to know if the city can ask the Forest Service for help with Bear Run Rd. Mayor Everhart added that Heffington mentioned the same thing. Mayor will talk to the commissioners again next week and ask that question.

XI. MAYOR UPDATES

Mayor Everhart explained that the ad was posted for potential applicants who are interested in the Chief of Police position. There have been no applications received, so Mayor will interview Seargent Watson on Friday and will have a recommendation next meeting. Chili Cook Off this weekend come out and check thing out.

the 1990s, the number of people in the UK who are aged 65 and over has increased from 10.5 million to 13.5 million (19.5% of the population).

There are a number of reasons why the number of people aged 65 and over has increased. One of the main reasons is that people are living longer. The life expectancy at birth in the UK is now 77 years for men and 81 years for women (ONS 2000).

Another reason is that people are having children later in life. This means that there are more people aged 65 and over who have children who are still alive.

There are also a number of reasons why the number of people aged 65 and over is expected to increase in the future. One of the main reasons is that people are expected to live even longer.

Another reason is that people are expected to have children even later in life. This means that there will be even more people aged 65 and over who have children who are still alive.
