D. IDAHO CITY CHAMBER OF COMMERCE

Doug Pottinger asked if a cance would be allowed in the pond at the visitor's center for the contestants during the Idaho City Days event. He was told by Chief Otter that unless life vests and or a lifeguard was available then it would not be advised and or allowed.

Nothing else to report.

VIII. EXECUTIVE SESSION

Certain City-related matters may need to be discussed confidentially as a matter of law subject to applicable legal requirements; the Council may enter executive session to discuss such matters. **ACTION ITEM**

IX. EMPLOYEE UPDATES

A. PUBLIC WORKS

Public works director Tami Claus (Franklin) asked the council about pouring concrete at the "doghouse" for the RO System. They suggested hand mixing since it is a small area. Secor has a mixer she could use, Grader updates. Sewer plant battery on the generator had to be replaced and the yearly maintenance will happen. Computer went out and will be replaced with one from city hall and IT will pull information off the old one. Sand bays will be done next week. Looking for volunteers. She will contact the county probation office and see if there are people needing some hours to fill.

B. LAW ENFORCEMENT

Chief Otter addressed the council and stated the new computer system is up and running just waiting for the cameras to get connected. The car still needs to have items finished and probably will not be done until November.

C. CLERK/TREASURER'S OFFICE

Clerk Ptak gave an update on some information that may help people with past due water accounts and will put it on the next agenda. It is a program through WICAP and the city will need to be set up as a vendor in order to receive the funds from the state.

D. CITY ATTORNEY

City Attorney Joan Callahan gave an update on having some students working pro bono, currently working on RV ordinance, working on overdue water and sewer bills.

X. COUNCIL UPDATES

None currently.

XI. MAYOR UPDATES

VIII. EMPLOYEE UPDATES

A. PUBLIC WORKS

Public works director Tami Claus has been trying to get concrete and it has not been an easy task due to availability. RO system is still getting some finishing touched before operation, chemicals getting ordered for startup and figuring out shelf life and amount that the city will be going through for the RO. Installing insulation in the meters to be winter ready.

B. LAW ENFORCEMENT

Chief Otter was called out. Clerk gave updates regarding the new hotspots, emails and phones ordered or getting put into place. Archuleta will be starting full time in November.

C. CLERK/TREASURER'S OFFICE

Clerk Ptak gave an update on the end of fiscal year billing and procedures. The comments on the audit were addressed as policies in place already, such as bank statements and vouchers getting the required signatures. Considering the city had to deal with a lot during the shut down due to the pandemic it was very minimal. Clerk thanked the council for doing their due diligence in trying to keep some sense of order and compliance in place throughout the last year or so. Council had been given updates on the water and sewer billing delinquencies. She also hopes to have a year end balances.

D. CITY ATTORNEY

City Attorney Joan Callahan has been working on the past due water and sewer accounts and has been contacted by one of them to start up a payment agreement, the other needs a bit more work done to make sure of the proper ownership of the properties in question. The council may want to discuss this with the property owner that has shown up to this meeting. They would not be able to make a final determination however but can discuss this with the owner if they choose to do so. She is still working on a couple ordinances and hopes to have them available for upcoming meeting. She has also received a student that was a city clerk in the past, a great fit for the local tax proposal.

IX. COUNCIL UPDATES

Everhart suggested Tami to order new batteries for the meter readers. He has not heard much about the water right issues, but he does know the engineers are looking into it and in contact with the city water master.

X. MAYOR UPDATES

Mayor Canody has been in contact with the Forest Service District Ranger regarding the beaver dams along Elk Creek near the airport, the concern is that there could be flooding, and it would be harmful to critical city infrastructure, i.e., the sewer plant, not to mention the sheriff's office and other buildings in the area. The district Ranger has been in contact with a trapper and someone to remove debris. The mayor just wanted the council to keep this in mind for in the future, it will most likely be an ongoing issue.

CITIZEN COMMENTS

This section of the agenda is reserved for citizens wishing to address the Council regarding City-related issues that are not on the agenda, In order to ensure adequate public notice, Idaho Law provides that any item requiring Council action must be placed on the agenda of an upcoming Council meeting, except for emergency circumstances. Comments related to future public hearings should be held for that public hearing. Repeated comments regarding the same or similar topics previously addressed are out of order and will not be allowed. Persons wishing to speak will have 5 minutes. Comments regarding performance by city employees are inappropriate at this time and should be directed to the Mayor, either by subsequent appointment or after tonight's meeting, if time permitting.

Tony Beill asked the council if there could be more signs or something to deal with traffic on Elk Creek, council and mayor explained that the new hire for the police department will be doing mostly traffic duties. He was happy to hear this.

Brittany Crawford addressed the council as one of the outstanding water and sewer bills that may be getting a lien on the property if counsel makes that determination. She told them the property is for sale and is hoping to have it sold quickly and then the proceeds would go to the outstanding bills, she has had an offer on it and should know soon. Council thanked for coming forward and will wait to see what happens in the next few weeks. She was hoping to not to have to get a loan to pay the bills but would if needed.

Project Progress Report August 2021

Idaho City

2020 WINN Grant Funded Water improvements Project Small and Disadvantaged Communities Grant

Project No. 234.0030

GENERAL

The following work was performed in August 2021:

- Construction:
 - Yard and mechanical piping connections between the well, distribution system, and sewer system and the RO skid were completed.
 - o Trenching was backfilled and roughed in approximately to grade.
 - The submersible pump and motor were installed in the well. A new vented well cap with a conduit penetration that meets IDAPA 58.01.08 requirements is on order. Final electrical connections between the well pump and the RO skid will be made after the cap is installed.
 - o Electrical work inside the skid was largely completed.
 - Additional supplies necessary for startup were ordered, including support gravels, calcite, and cartridge filters.
- Schedule:
 - Construction will be ongoing throughout September. Kurita is scheduled to be onsite for programming and testing the week of October 4th and for system startup the week of October 18th.

DISADVANTAGED BUSINESS ENTERPRISE (DBE)

In accordance with the subaward agreement, Section VII. b. Reporting Requirements, an annual disadvantaged business enterprises (DBE) report shall be submitted to IDEQ for review. To date, neither minority owned enterprise (MBE) and/or woman owned enterprise (WBE) has provided services on these water improvements projects.

2020 WINN Grant Funded Water improvements Project Small and Disadvantaged Communities Grant

Project No. 234.0030

GENERAL

The following work was performed in September 2021:

- Construction:
 - Electrical work is largely complete and ready for startup. Final connection of the well pump and submersible transducer will be made after the well cap is delivered to the site.
 - The chlorine metering pump skid was installed in the container. The pump mounting bracket was damaged during shipment and a new bracket is on order, but in the meantime the pump should be functional.
 - o Calcite and support gravels were installed in the calcite contactors by city staff.
 - Chemicals and Hach monitoring equipment were ordered. All chemicals should be available on site for startup.
- Schedule:
 - Kurita is scheduled to be onsite for programming and testing the week of October 4th. Kurita's programmer will be arriving in Boise on 10/4 and will meet with Mountain Waterworks to review scope of work and control descriptions. Programming and testing will occur the week of the 4th.
 - o System startup remains on schedule for the week October 18th.

DISADVANTAGED BUSINESS ENTERPRISE (DBE)

In accordance with the subaward agreement, Section VII. b. Reporting Requirements, an annual disadvantaged business enterprises (DBE) report shall be submitted to IDEQ for review. To date, neither minority owned enterprise (MBE) and/or woman owned enterprise (WBE) has provided services on these water improvements projects.

PROJECT BUDGET

In accordance with the subaward agreement, Section V. Project Budget, a not to exceed budget of \$300,000 is established for the water improvements projects. The attached Engineering Budget Summary details the total engineering budget, total forecast, billed to date, remaining budget, and percent completed.

PAYMENT AND REIMBURSEMENT SUMMARY

In accordance with the subaward agreement, Section VI. Billing Procedures, source documentation and payment request are attached using the Outlay Reimbursement Form. This reimbursement request consists of one invoice from Mountain Waterworks, Inc., and contract Pay Application No. 2 for Cascade Enterprises.

1. Definitions:

- a. <u>Confirmation of Having or Not Having the Disease</u> means an <u>employee</u> receives confirmation that he/she does or does not have the disease by undergoing qualified testing as recommended and/or directed by public health authorities.
- b. <u>Communicable Disease (also referred to herein as "the disease")</u> means an illness caused by an infectious agent or its toxins that occurs through the direct or indirect transmission of the infectious agent or its products from an infected individual or via an animal, vector or the inanimate environment to a susceptible human host.
- c. Employee means any person employed full-time or part-time by (city/county/other).
- d. Employer: means city/county/other.
- e. <u>Public health authorities</u> mean a governmental or quasi-governmental public healthoriented agency or body responsible for providing guidance and instruction on *communicable diseases*. Examples of these public health authorities are the Centers for Disease Control (CDC) and local Public Health Districts.
- f. <u>Quarantine</u> means a state of isolation in which people who have been exposed or potentially exposed to the disease are secluded to avoid exposing others to the disease.
- g. <u>Workplace</u> means a location where the **employee** normally performs the functions of his or her job.

2. Declaration of Communicable Disease Emergency

Employer may declare a **communicable disease** emergency at any time based on the presence or threatened presence of a **communicable disease** within **employer's** borders, boundaries, or areas of operation. **Employer's** decision to declare a **communicable disease** emergency may be based on the direction and recommendations of **public health authorities** but shall not be bound by the same. **Employer** may declare a **communicable disease** emergency whenever a **communicable disease** affects or threatens to affect the health and safety of **employees** and/or members of the public within **employer's** borders, boundaries, or areas of operation.

3. Screening of Employees

Employer may conduct screening of **employees** entering the **workplace** to protect against the spread of the disease in the **workplace**. Such screening may include **employees** being asked whether they have the disease, whether they have symptoms of the disease, and whether they have been tested for the disease. **Employees** may also be asked whether they have come into contact with anyone who has been diagnosed with the disease or who may have symptoms of the disease. Such screening may also include **employees** having their temperatures taken and other similar steps. **Employer** may also administer testing for the disease to determine whether **employees** entering the **workplace** have the disease.

An **employee** who refuses any screening measures, including answering the questions set forth above, may be excluded from the **workplace**. **Employees** who refuse screening measures will be required to use paid time off and will not be eligible for emergency paid sick benefits if available. **Employer** may require an **employee** to leave the premises if the screening process indicates the person has or may have the disease.

If an **employee** calls in sick the **employer** may ask the **employee** the screening questions above. Additionally, if an **employee** has missed work, the **employer** may ask the **employee** why he/she has missed work.

In addition to the requirements above, **employees** are required to self-report any positive test or diagnosis of the disease to **employer**, as well as any known or suspected exposure to someone with the disease, and any symptoms of the disease.

If **public health authorities** have recommended **quarantine** for people who travel to specific locations, **employees** must notify **employer** if they have traveled to any such location during applicable **quarantine** periods for those locations. If the **employee** has traveled to one of these locations, **employer** may direct the **employee** to stay away from work premises for the prescribed **quarantine** period. Such requirements will only apply to personal travel during the **communicable disease** emergency.

All such screening will be confined to those measures prescribed by **public health authorities** and consistent with legal limitations. All information obtained from screening will be kept confidential.

4. Attendance and Time Off

Unless otherwise directed by *employer*, *employees* are expected to perform the duties of their positions as they normally would despite the presence or potential presence of the disease. However, *employer* understands that *employees* may be impacted by the disease in ways that necessitate their being away from work at times. The utilization of vacation and/or sick days due to the disease applies to *employees* who become sick with the disease as well as those who undergo *quarantine* because of exposure or potential exposure to the disease. Accordingly, *employees* may utilize *employer's* vacation and sick leave benefits for time off due to the disease as set forth below.

- a. <u>Infection</u>: Time off for *employees* who are confirmed as having the disease shall be given as follows: *Employees* who are confirmed as having the disease may immediately begin taking sick leave. This leave will continue until *employee* provides written clearance from a health care professional stating that *employee* is fit to return to his/her job. *Employer* may also allow an *employee* to return to work under guidelines provided by *public health authorities*.
- b. <u>Quarantine</u>: Time off for *quarantine* shall be limited to the number of days prescribed by *employer* based on recommendations by *public health authorities* at the time of the *quarantine*. At the end of the *quarantine* period *employee* must return to work unless the *employee* has been confirmed as having the disease and further time off is recommended by a health care provider.
- c. <u>Leave to Avoid Exposure</u>: *Employees* who have not been exposed or potentially exposed to the disease may not utilize sick leave days to avoid exposure to the disease. *Employees* may utilize vacation days for the purpose of avoiding exposure only with approval from the *employer*. The decision to grant vacation days for this purpose will be made by *employer* based on the needs of the *employee*'s department and that department's ability to function efficiently and properly in the *employee*'s absence.
- d. Leave to Care for Family Members:

(IF EMPLOYEE IS FLMA-ELIGIBLE) *Employees* may use *employer's* vacation or sick leave benefits to care for immediate family members affected by the disease if eligible to do so under the Family and Medical Leave Act (FMLA). To do so, *employees* should make a request for FMLA leave with *employer's* human resources department as directed by *employer's* normal FMLA policy.

(IF EMPLOYEE IS NOT FMLA-ELIGIBLE) Unless otherwise provided by law, **employees** should refer to **employer's** emergency leave policy regarding taking leave to care for family members.

e. Employer Required Time Off

Employer may require an **employee** to take time off under this policy in the event an **employee** is confirmed as having the disease, has been exposed to the disease, or has potentially been exposed to the disease. In this event the **employee** shall be charged for sick or vacation leave unless **employer** directs otherwise.

f. Returning from Time Off

Employees who have taken time off due to the disease must return to work when their leave expires except as directed otherwise in this policy or by *employer*. *Employees* whose leave has expired who refuse to return to work may be considered as having abandoned their position.

g. Discretionary Leave and Unpaid Time Off

In the event an **employee** has no remaining vacation or sick days and needs to take time off related to the disease, the **employer** may allow the **employee** to take discretionary leave in which the **employee** does not report to work but continues to be paid. The **employer's** decision to grant discretionary leave will be made on a case-by-case basis and will be based primarily upon the financial ability of **employer** to grant such leave as a general practice. In the event **employer** does not grant discretionary leave, **employer** may, but is not required to, allow the **employee** to take unpaid leave. Such unpaid leave will be considered by the **employer** on a case-by-case basis.

h. State and Federal Laws

Employer will adhere to all state and federal laws governing *employee* leave and pay during times of emergency, including any laws enacted specifically for the disease.

i. Accommodations

Employer may provide accommodations to *employees* that vary from the terms above. Any *employee* who believes they need an accommodation should contact human resources to make a request.

5. Stay-At-Home Orders

In the event **employer** is prohibited from having its **employees** enter the **workplace** by order of the State, **employer** will comply with this order and all **employees** (except those exempted) should remain at home until such time as they are directed to return to work. In this event, **employer** will make separate provisions and issue directives to its **employees** regarding this event and what **employees** should do.

Once a stay-at-home order has been rescinded, *employees* must return to the *workplace* unless otherwise authorized by *employer*.

6. Working Remotely

As a way of preventing the spread of the disease in the **workplace**, and/or to enable an **employee** who is unable to be in the **workplace** to continue working, **employer** may allow an **employee** to perform his or her job duties remotely. However, the decision by **employer** to allow an **employee** to work remotely shall be made on a case-by-case basis, and shall be based on the needs of the **employee**'s department, the feasibility of allowing the **employee** to work remotely (including technical and logistical considerations), the security of the **employee**'s remote location in light of the **employee**'s job duties and the sensitivity of those duties, and other considerations.

Employees must obtain authorization to work in a remote location other than the original location approved.

Employees who are allowed to work remotely may be required by **employer** to come into the **workplace** when **employer** deems it necessary. **Employer** may require the **employee** to return to working in the **workplace** at any time.

7. High Risk Employees

Employees who are deemed by **public health authorities** to be at an increased risk of becoming infected with the disease are urged to consult with their physicians regarding steps they should take to protect their health. Such **employees** may request accommodations due to their status with human resources. However, all accommodations will be considered on a case-by-case basis and considering legal requirements and **employer's** ability to grant such accommodations without undue hardship.

8. Confidentiality of Employee Health Information

If an *employee* tests positive for the disease, *employer* may inform fellow *employees* of their possible exposure to the disease if applicable. However, *employer* will maintain confidentiality with respect to *employee*'s health condition as required by applicable laws.

9. Masks and other preventative measures in workplace

The **employer** may issue directives for the wearing of masks and/or other personal protective equipment (PPE) in the **workplace** to stop the transmission of the disease. Such a directive will be made based on the guidance of **public health authorities** and may be amended from time to time as determined by **employer**. A directive from **employer** regarding masks and other PPE will apply to all **employees** of **employer** except those specifically exempted.

Once a mask directive has been issued, **employees** who are unable to wear a mask for any reason should consult with human resources as soon as possible. **Employees** may be asked to provide documentation from a health care provider regarding their inability to wear masks or other PPE. **Employees** who are unable to wear masks in the **workplace** may be required to perform their duties in alternative workspaces, work remotely, or to take leave with or without pay depending on individual circumstances.

Employer may also take additional steps to prevent the spread of the disease in the **workplace** such as requiring social distancing, installation of protective barriers, and other measures. **Employees** are expected to adhere to all such requirements put in place unless excepted from doing so by **employer**.

Because the wearing of masks and/or other PPE is meant to prevent the spread of the disease and represents an important part of protecting **employees** and members of the public in the **workplace**, **employees** who have not been exempted from wearing masks or other PPE by **employer** and who refuse to follow the **employer's** directives regarding the same may be subject to discipline. The same applies to **employees** who refuse to observe or follow other requirements put in place to prevent the spread of disease in the **workplace**.

10. ADA/Accommodations

Employer will adhere to all requirements for accommodations as set forth in the Americans with Disabilities Act (ADA). **Employees** who wish to request accommodations that will enable them to fulfill the essential functions of their jobs should make such requests through their human resources office.

11. Vaccinations

Employer may implement a separate policy governing employee vaccination for the disease.

12. Employee Travel

Employer may restrict **employee** travel for official purposes during the **communicable disease** emergency period. Such restrictions will be communicated by **employer** to all affected **employees**.

13. Workplace Hygiene and Cleaning Practices

Employer may institute policies and procedures regarding *employee* hygiene and the cleaning of workspaces based on the recommendation of *public health authorities*. *Employer* may require *employees* to take certain steps with respect to personal hygiene and

environmental cleanliness to maintain a clean and safe **workplace** to help prevent the spread of the disease.

14. Exceptions to Policy

This policy shall not apply to any **employee** or class of **employees** specifically designated by **employer**. **Employer** may add or remove any **employee** or class of **employees** to or from this designation at any time.

15. Violations of Policy

Because the steps set forth in this policy are necessary for *employer* to prevent the spread of the disease and to protect *employees* and members of the public in the *workplace*, an *employee* who intentionally fails to follow the provisions in this policy may face discipline up to and including termination. Additionally, *employees* who knowingly provide false information to *employer* regarding the directives in this policy, including for the purpose of obtaining benefits, may face the same discipline.

ACKNOWLEDGEMENT OF COMMUNICABLE DISEASE POLICY

I, ______, acknowledge that I have read *employer's* Communicable Disease Policy and that I understand it and agree to comply with it. I further acknowledge and understand that it is my responsibility to be familiar with the terms of this policy and to abide by them. I understand that I may be subject to disciplinary action for failing to adhere to these terms.

Subject: Yurt possibilities

Comments:

"Hi. We are interested in the possibility of setting up a couple of yurts as air B & B type rentals in Idaho city. Who would we need to talk to about this possibility and can we set up an appointment with them to be able to discuss this idea? Thursday 10/28? Thanks so much ! Mary'

I am looking into this and will let you know as soon as I hear back from the city attorney and planning and zoning. In the meantime, where exactly in the city would this be located?
