It is hereby determined and declared to be necessary and conducive to and for the protection of the health, safety and welfare of the inhabitants and the public of Idaho City, and for the purpose of providing an equitable distribution of the costs and expenses of maintenance, operation, upkeep and repair of the municipal water system of Idaho City, that a system of monthly service charges, rates and fees be established for the use of and services rendered by said water system and facilities.

Therefore, in addition to being a personal obligation, the rates, charges, fees and penalties provided by this Ordinance are hereby levied and assessed against each lot, parcel of land, building or the property (including trailer houses) connected to, or using, the municipal water system of Idaho City.

The following monthly water rates, charge or fee is hereby established in the amount of not less than \$3.25 \$10.00 per month for any single dwelling residence; general business, public offices, churches and lodges, \$3.75 \$12.00 per month; restaurant, bar or restaurant and bar combination, \$4.25 \$15.00 per month, with a minimum rate for vacant residences and buildings of \$1.50 \$2.50 per month; laundromat \$20.00 per month; motel, hotel and boarding houses, 1 to five units, \$12.00 per month, without kitchen utilities; 6 to 10 units, \$20.00 per month; 11 to 15 units, \$30.00 per month; 16 to 20 units, \$40.00 per month; 21 to 25 units, \$50.00 per month; vacant trailer space, 50 cents per month; overnight trailer spaces, 1 to 5 units, \$2.00 per month; 6 to 10 units, \$3.00 per month; 11 to 15 units, \$4.00 per month; school house, \$30.00 per month, forest service \$120.00 per month, it being understood that other businesses and associations will have to be appraised by the City Council to establish applicable rates and

said Council shall meet with the business or agency being rated, charged with said water rate or fee to approve the appraisalment and assessment and establish the rate, charges or fee, levied and assessed against such property. The rates for businesses outside the city will be 20% above corporate rates for those inside the city provided that the hookup is allowed by the city council.

All applications for new water services connections must be made in writing by the owner or occupant of the premises to be served, on a form provided by the City for that purpose. Where the City has in place water distribution mains of sufficient size and adjacent to the applicant's premises to furnish the service desired, the City shall install at the applicant's expense, together with a connection fee of ~~\$100.00~~ \$150.00 and thereafter maintain at city expense, a service connection of proper size to the applicant. The property owner or occupant shall pay one-half of the excavation costs and shut-off valves to be placed on the City property.

Except as otherwise provided by these rules and regulations and rates, the City will refuse (a) to install a service connection of a larger size than in its opinion is adequate to properly serve the premises; (b) to install a service connection which, in its opinion, will work an undue hardship on the City or its existing consumers; (c) to connect a service connection to a customer's plumbing where the depth of his service line is less than necessary to prevent freezing under normal conditions; (d) to connect to any service, main or other appurtenance that in its opinion does not conform to good engineering design, or meet the standard specifications of the City; (e) to accept an application for a service connection if it requires an extension of the City's mains, unless said mains can be to the City's specifications with the owner or occupant paying the cost of installation plus the cost of a one inch line. Any larger line than a one inch main will be paid for by the City; (f) no service from the municipal water system will be rendered to any applicant outside the corporate limits of said City of Idaho City until, in the judgment of the City Council, those requiring service within the corporate limits have been properly served and there is available water supply for outside users, and then only under the following conditions: The applicant must submit his application for service to the City Council of Idaho City and secure its approval and then the applicant himself must install, or pay the cost of installing, the service connection in compliance with the rules and regulations and under the supervision of a City engineer, and title to the right of way, pipeline, and other connections must be properly conveyed to the City all under such special rate for service and maintenance charge and possible ultimate refund because of other services rendered through the same line, or for the same reason as may be mutually agreed upon between such outside water user and the City
